Commercial Matters at St. Louis.

The St Louis Republican of the 31 instant, says that navigation is apll suspended, receipt f produce light and prices firm with upward tendency. A sale of white wheat (600 bushels) is noticed at two dollars a bushel, the highest figure ever reached in the St. Louis Market. A lot of 1000 beared wheat sold for \$1,75. These extreme rates are owing to the great scarcity of Whent at St. Linus. Sales of 1500 bbls of flour are noticed at \$3 for superfine and \$9,50 for City extra. Corn is from, with tales at 70a75, and by the town clarks, under direction of the S. et. | Oats dall at 50cts. Wisconsin Barley was selling at \$1,40a\$1,45 per bushel. Rye nominal

Provisions are firm with limited sales of Mess Good potatoes were solling at \$200 per bushel. The Republican says that rain is generally wished for to raise the rivers and carry off the ice which obstructs their navigation.

Wast Bann.-The Washington Co., Organ, published at West Bend, gives a good account of the growth and prospects of that town. Be-tween 30 and 40 buildings were erected last year and many more are to be put up this year. Excellent material is abundant and close at hand Enough has been said to establish t e fact In the village there are four public houses, seven at the state of the sale of dry goods and grocesica, one stores for the sale of dry goods and grocesica, one store and hardware store, one drug store four boot and shoe shops, one grist mill, three blackmooth and shops, four carpentare shops, two cabinets are the state of the support.

Enough has been said to establish the fact the States Prison Committee. The state Prison Committee Prison Committee. The state Prison Committee Prison Committee Prison Committee Prison Co maids shops, four carpertiers shops, two cannot contained to the subject.

Inskers, two carriage stops, two broweries, two brick yards, that now we will proceed to examine upones expenses at large that there has been opining and above a large that the charge that there has been opining and above a large that the charge that there has been opining and above pristion,

MR. TAYLOR'S SPEECH. spench of thou David Taylor, on the pro-smble and resolutions introduced in the State Senste by Mr. Reymert, on the 2 wir.

It beg the indusence of the Senate this moring, whilst I submit a few remarks on the question new before the Senate; and considering that very little of the time of the Sena eduring its present session has been occupied by me, should my remarks be some what extened I am inclined to believe the induspence will be cheerfully granted.

This Legislature is charged, outside by the opposition press, wit doine mathing. Nothing

strongly of the press, and contains in the peamble, by implication, the same charge which have been daily panded for weeks by the idministration organ in this place. Whilst he opposition and particular guardiam of the sittle officer are content to year their subsection. opposition and particular guardians of the si its officers are content to root their spleen through the daily issues of the noweapers, and connet their calumnies to the columns of a particular act, we have nothing to say; but when not content with these means of libelling the Staghai party in this Legislature, they undervo to give their signifiers the sanction of truth by monodying them in the premible to a grave T solution, and present them for the considera ion of this Senate, I propose to have a work to

sy.
The resolution estentationally declares hat The resolution ostentationally declares hat the Legislature has been in accious erron we ke, and by plain implication charges that du ing this long time not anything worthy of men ion bas been done, nothing in the legislative ne, and especially nothing which tends to cat a shadow upon the fair fame of the administration, or which in the least justifies any of the complaints made against them.

There are two causes of complaints against the majority in the legislature, first, the no legislation has been done, that we are incompetent. Indolent and false to our profession of a desire to lesson the expenses of the St. io. In order to determine the truth of this charge.

of ndessite to lesson the expenses of the St. ie.

In order to determine the truth of this charge we must consider what other legislatures under similar, or at least equally as favorable circumstances, have done. I propose there ore to consider the last legislature as a proper pattern. That having been a pure, old fashi ned kind of legislature, democratic in all its vanous branches, unadultored by the presence of the modern Shanghai, it englished to be accepted by our opponents as a perfect model, worthy 1, be copied by all fature legislatures. Conded into a spirit of inquiry by the incessant crying institute indonnection. I have taken the troubletos and a few hours in looking over the record of that model legislature, to ascertain if possible if there were any truth or reason for this avec charge against us.

In looking over the actings and doings to this model it is found that very little was done as early as this period.

State for the year 1855 as before shown, it will be seen that the above estimate of Rosense et al. State for the year 1855 as before shown, it will be seen that the above estimate of Rosense et al. State for the year 1855 as before shown, it will be seen that the above estimate of Rosense and Expense. It is seen that of Expense, by the sum of \$35,767.

What information is intended to be conveyed by the foregoing exhibits of affairs of the State reason? What information is intended to be conveyed by the foregoing exhibits of any person, after perusing the easy the foregoing exhibits of affairs of the State the would be a deficiency in the treasury at the even would be a deficiency in the treasury at the eventual to another year. I certainly not, but, on the contrary, the legislature conclusion, that there would be a deficiency in the treasury at the eventual three would be a deficiency in the treasury at the eventual three would be a deficiency in the treasury at the eventual three would be a deficiency in the treasury at the eventual three would be a deficiency in the treasury at the eventu

are pages are occupied by the 249 acts p used after that date,

100 laws of a general nature were passe 1, at the same session, and of these, previous to the date above mentioned, 25 were pussed and 75 afterwards. These 100 acts occupy 144 pages, the 25 acts passed previous to March 1st coupy 23 of those pages.

The same legislature passed 55 memorit s, 13 before and 22 after the 1st of March. The journal of the dames of that purery demorratic Assembly contains 861 pages, 419 of hese pages are occupied by the doings of this body previous to March 1st including the Gove nor was message, and 443 pages are occupied with the doings after that date

The Senate journal of that legislature contains 698 pages, 312 contain the doings of that body before March 1st and 376 the doings after that date

In looking over these journals and the and

agency and one in favor of a probibitory squor law, is the report of the Committee on State law, is the report of the Committee on State Affairs, upon the subject of the Lonatic Asylum, and this report was made on the 2d lay of March. This was a report on a very important subject and undoubtedly bad prope and diligent attention, and yet it did not make its appearance until after the 1st day of Mach.

The subject of this report, of grave importance at the time of its delivery in the Senat, has been increasing in gravity and impo tames from that time to the present, and is now, on account of those appointed to carry out it e rec-ommendations and suggestions contained in

f the emigration agency.

March 4th, a report on the propriety o 'abolching the present county system.

March leth, a report on mining and smelt-

ng March 24, a report on bill providing for a etate tax
March 31st, a report from a cotamit a appointed to invertigate the school fund is as.
March 27th, a report on the subject of the
canel land mortgages, collected by S. Park

Coon.
March 25th, a report on the subject of the
Pox and Wiscousia River Improvement
April 3d, a report on the subject of au horiz-

all the legislation was done after the ist of March. All the reports requiring invest gation were made late in the month of March. The three reports made by the purely invest rating committees were made on the 27th, 26 h and 31st days of March; these were the rep rts on the S. Park Coom mortgages, the Fox River Improvements and the school fund losu. The above is the evidence of the spead with which the highly capable, persevering industrives and pre-eminently democratic legislature, treed its business; and this was a legislature of your lete Shanghai Importations, that the composed of your real Simon-pure article, none of your lete Shanghai Importations, that the composed of your real Simon-pure article, none of a cross between the denghilf and gas a cock having a full share of the beauting propensities of the one, with a alight sprinkling of the real was to the actual expenses, for the objects of 1864, as expressed by the Governor in his statement above, where he makes that the report of was the model one? It has passed over 180 local acts, a legion of memorials, at least as many general acts as passed within the same period lastycar. We have had an iderence of a cloudy the Governor is make the model one? It has passed over 180 local acts, a legion of memorials, at least as many general acts as passed with in the same period lastycar. We have had an iderence of a cloudy the Governor is make the same period lastycar. We have had an iderence of the Secretary's inself, and from a careful open a long and tedious investigation of facts; several reports of grave importance in the Assembly—one on the Swamp Lands, requiring much labor and research; one on the Poblibition of the Cologist, and others which it is unnecessance to mention—all delivered prome its and the accounts audi.

much labor and research; one on the P ohibit-ory Liquor Law; one on the removel of the State Geologist, and others which it i unne-cessary to mention—all delivered promp (ly and application to bushess which the most does not furnish. The other committees of exesti-gation, having under their charge sabje its regation, having under their charge subjects requiring tedious research, and the collection of large masses of evidence, have not yet reported, but there is abundant evidence it it they will bring in their reports much earlie; than those of the model legislature. In add tion to having accomplished much more than (or predecessors, within the same time, we have accomplished the election of an United State Senstor, which labor, owing to the in ennity of the opposition, occupied nearly the first three weeks of the session. This official duty fortunately for the present majority of the I egislature, and for the interest of our State, than not a part of the labor of our Immediate pr decessors.

rity of the State officers by any investigations. One would suppose that those articles were cry destrable, troa the pertinactly with which the opposition press in this place is crying after them. Some investigations have already been made, others are progressing finely, and when the result is published. I predict the ravenous appetite of some who are hunkering after them will be asted. As a kind of stay to the stomach of some who appear to be almost famished for the want of these investigations, until such time as they shall be presented with the feast of them now preparing by the regular committees. I propose, with the indulgence of the Secare, to give the result of a few hours' investigation of the report of the Secaretary of State to which a incoming a complete statement of the funds of the State.

The law makes it the duty of the Secretary of State to oxhibit to the Legislature at its annual meeting a complete statement of the funds of the State. According between the State, according between the State, according between the State, according between the State, according to the State according between the State according to the seal of the State according to the seal that state according to the seal that some the seal the State according to the seal that some the seal that some the seal the state after a state according to the seal that some the seal the state and the state after the seal that some the seal the state according to the seal that some the seal that some the seal the state according to the seal that some the seal that some the seal that seal the state according to the seal that some the seal that some the seal that some the seal that seal the state according to the seal that some the seal that seal that some the seal that seal the state according to the seal that seal that s

This Legislature is charged, outside by the opposition press, wit doing mothing. Nothing in the way of developing the alleged misdeods of the State Administration.

The press which is said to be the particular organ of the State Officers is delily refrecating to the charge of indolence, incompetency, a doministration of the State Officers is delily refrecating to charge of indolence, incompetency, a doministration of the state of the majority of the charge of indolence, incompetency, a doministration of the part of the majority of the charge of indolence, incompetency, a doministration of the part of the majority of the charge of indolence, incompetency, a doministration of the present Legislature, and this lead has been individually described as a good matured, howed by the very few presses in the state which take their time from the organ here. I have been individually described as a good matured, individually the condition of the finances of the State, and that the same will be done in a plain and explicit insumer, so that the people will be state, of the manuscal metals at the state bein debt or out to find the finances of the state, of the manuscal metals at the state bein debt or out to find the finances of the state, of the manuscal metals at the state bein debt

"Herewith marked 'D.' will be found detailed estimates of expenses to be defraved from the treasury during the ensuing year, amounting in the aggregate to the sum of \$253,059,52,which may be embraced under the following heads, to

Salmies, 3,200
Permanent appropriations, 3,200
Legislative expenses, 77.050
Miscollaneous, 162,133 The revenues of the State, applicable to the payment of liabilities and expenses during the ensuing year, are as follows:

By reference to the estimated expense of the State for the year 1855 as before shown, it will be seen that the above estimate of Rayanue ex-

model it is found that very little was doted as a sarly as this period.

There were 377 private and local acts present during the acession, 88 before the first d y of March, and 240 after that date. The sook containing those acts has 584 pages extel size of index. 100 present which are accupic 1 by those 86 acts passed previous to March 1st and 483 pages are occupied by the 249 acts present after that date.

100 laws of a general nature were passed in at the same accession, and of these, previous to the same session, and of these, previous to the same session of \$11,032,72 is included, as accessary to be applied toward the erection of a period same session, and of these, previous to the same session, and of these, previous to the same session, and of these, previous to the same session, and of these and accruing liabilities at \$250,059,52. In this estimate, it is proper to state, that the containing those acts passed previous to March 1st and excellent previous to the passent previous to the same three are passed and the same that the support of couriets and accruing liabilities at \$250,059,52. In this estimate, it is proper to state, that the containing the present same accruing liabilities at \$250,059,52. In this estimate, it is proper to state, that the containing the previous to same acruing liabilities at \$250,059,52. In this estimate, it is proper to state, that the same accounts of the same accruing liabilities at \$250,059,52. In this estimate, it is proper to state, that the same accounts of the s

To meet the foregoing limbilities, the resocrees are stated as follows, viz:

Total, \$.298,829,9 Among the matters of interest presented by this Report, is a brief review of the public ox-penditures, since the admission of Wisconsin into the Union—Showing the yearly appropria-tions therefor, from 1848 to 1854, inclusive amounting in the aggregate to the sum of \$830,244,30; of which \$94,074,31 was in the years of 1248-9; \$71,675,38 in 7850; \$112,420,80 in 1851; \$123,474,06 in 1852; \$163,910,53 in 1653; and \$261 692,07 in 1855. Of the last named sum, appearing under the head of expenses for 1854, \$63,696.03, was for the expenses of other years, so that the actual expenses, for the objects of 1854, were \$200 - 906,04, inclusive of such as are provided for by permanent provisions—thus only exhibiting that annual increase in public expenses, cons unar annual increase in gublic expenses, couse-quent upon the organization and progress of a new state, and growing in a great measure out of the necessary expenditures in providing Penitentiary and other public buildings, and the establishment of charitable institutions.— While from the forestiments. While from the foregoing, it would appear that the expenses for the year 1854, were between thirtyand forty thousand dollars more than fo any previous year, yet the aggregate for gener al purpose, for that year, was evidently som forty thousand dollars less than for 1853. This commendations and suggestions contained in said report, engrossing the attention and exit practice a lover the State. There is no intention on my latt to charge two of the Senators who signed that report with any design to aid or abet the coings under it, nor do I hold them charged to find the charged to the sunder the coings under it, nor do I hold them charged to may thing which may prove to be wrong toned for the same.

March 3d, a report was made on the subject of the emigration agency. which did then, as they do now, uppear to be just and worthy objects of Legislative favor; and some of which, at least, must continue to be objects of that character, and destined to

create no small proportion of the public expenses, unless other provisions that at present exist, are made for their defrayel." March 31st, a report from a commit a apminted to invertigate the school fund to us.

ced into the Senate, For keeping and transfer of State 15,000 00 prisoners,
The above statement, and estimates will be found upon examination lower than the ac-

amination lower then the actual expenses will probably be, and yet those make the smount probably necessary to be drawn from the treasury, an account of the general found during the present year to meet the present and accraing liabilities. Instead of the sum of \$253,050.25 as stated in the Secretary's report and in the message of the Governor. To meet the payment of this sum the Governor
To meet the payment of this sum
we have the following resources, State tax of 1854,
Probable receipt from tax on
rail and plankroad,
Probable tax on suits,
Tax on hawkers and pediers,
Cand long mortgages 225,000 00

Canal land mortgager, Probable tax on Ban'ss, In this estimate of revenues, I have made no in this estimate of ceremon, I save apparent there will be an equal amount of arearages at the end of the coming year, and I have not os timated the bank tax as high as in the Secre

tary's report, for the eason that the indication now are that banking will increase but little daving the year.

Deducting the probable receipts into the treasury from all sources during the general the whole amount chargable to the general fund for the same period—viz: \$419.597.75

263,410 00 \$251,197 35

And instead of having a surplus in the freasury on the lat day of Jan. of \$35,767 39 we have a clear deficit of \$151,197 35. I leave the figures to tell whether I have not proved the atter falsuy of the st dement made in the report and message as to the condition of the treasury. Let us for a magnet expanse the port and message as to the condition of the treasury. Let us for a unment examine the the fruth of the statement in the message, that the actual expenses, for the objects 1854, were \$200,993 64. By the foregoing statement it will be near that the whole am't of claims against the State secruing between the first day of Jan. 1854, and 1st of Jan. 1855, including the debt of \$3,101 70 was \$410,246 81, by deducting from this sum the said debt. 28.

And the amount luckeded in the arm of \$264, \$2 07 above set forth, and which, secording to to Secretary and Governor, is not chargable to 1854, viz: \$63,691 03.

Muking in all to be deducted from the above named sum of \$410.248 81, \$71,808 73, leaving a balance chargable to 1854, of \$338,440 08 invend of \$200,996 94, a difference of only \$137,-

I have considered it necessary to make this ax note considered it necessary to make this axposition of the reristate of finances of the fact, from the fact that there appears to have sen a very careful endeavor in the message of tweenor, to make it appear that the expenses followed in the manufacture of the administration where are the control of the complements of the control of the control

there were claims against the State upaid to the amount of \$216 947 36. Third, That on the first day of Jan, 1856, the Third, That on the first day of Jan, 1856, the State will be in debt to the amount of at least \$16,197 35 over an I above all revenues paid in, instead of being \$35,000 in advance. To this sum must be added the current expenses of the year, estimated at any \$200,000, and we have the grand total of \$356,197 35 to be provided for by this ies islature, in order to save the credit of the State. Where shall we obtain the enormous a un? Echa from the empty vants of bankrupt reasury answers, where? It is fortunate that "prosperity has crowned enterprise and industry, in wheterer heapels channel exerted," that we have a genial olimate, a fruitful soil, and that a bountful providence has blest us with abundant harvests, we dence has blest us with abundant harvests. we shall be the more able to sustain the rapidly growing burthers o taxation. The tax of last year was considered grievous, but instead of \$225,000 tast year, we must have \$325,000 this

ear. Having,as I believe, established the facts pro-Having as I believe, established the facts proposed, I shall now hake affew remarks generally upon the success of the present State administration.
They came into office with a debt of not toexceed \$0.3,000, chr gable against the general
fund for all liabilities accruing previous to Jan.
I, 1854. They will go out of office—perhaps I
mistake—their first term of office will expire
the first four of Lan 1856 with a charge.

nitake—their first term of office will expire on the first day of Jan. 1856, with a debt of over \$156,000, and much larger one unless restrained by the strong hand of the Shanghai party in this Legislature. The debt will have grown at the rate of \$50,000 annually, with a revenue for the 1st year of \$191,489 46, and for the 2d of \$263,400, making the gross and of revenue for the two years \$154,899 48. The predecessor of the present executive came into office with a debt against the general fund of about \$39,000, (See appendix to Journa) of 1862, pages 23 and 24), he went out of office with the debt increased to \$53,000; an annual increase of \$7,000, with a revenue of his administration, of \$135,155 39, and for the 2d year the sum of \$152,296 44 making the gross sum for the two years \$27,451 06, and it will be remembered that the two years of his predecessor were characterized by very long ressions of the Legislature, and matter of grave importance the State were transacted each year.

The revenue for the two years previous to the never transacted each year. on the first day of Jan. 1856, with a debt of

vious to the present administration was. The revenue for the two years of the present admi detration. \$287,467 96 Increase of revenue wincipally by taxation. The expenditures for the two years previous to Jan. 1, 54, for all purposes appleable to that period of time,

The expenditures for the two years of the present administra-tion, applicable to this period, the difference in the expendi-

ture, \$222,144 & This difference of expenditures must be made This difference of expenditures must be made up by tax on the people.

These calculations were made up in the supposition that the present contract in r building the Limatic Asylum with be repudiated by this Legislature. Should, however, the recommendation of the Governor be followed in regard to this matter, we should have to add to the debt on that contract at least \$20 \text{\text{uff}} \text{\text{uff}} \text{the current year, which would make the debt on Jan. 1856, \$356,000; instead of \$156, 000, and the same and the same and IUD, and require a tax to meet the same, and for current expenses of 1856, of at least \$475,

I leave the subject, hoping that I have, in I leave the subject, hoping that I have, in a slight degree appeared the ravenors appointed of those who are longing after the sigar plumbs of investigation, and that I have justified the charge made. Why such gross errors are found in the report and message, each person must determine for himself.

There are two radical essentials in the making up of a good officer, to-wit:—"competence and honesty," Does the report refer ed to, and the message, give tostimony produce, re-

honesty," Does the report refer ed to, and the message, give testimony proving, very clearly the existence of these essentials in a high degree, in their authors?

Having called the attention of the Senate to the real condition of our finances, douty which seemed quite necessary, that measures might be early devised to meet our coming liabilities—and have vindicated myself as I 'numbly con-

THE USURPATIONS OF SLAVERY. SPEECH OF WM. H. SEWARD,

SENATE OF THE U. STATES, FEB. 23, 1955, Protect Officers of the United States [соколивар.]

Every postmaster and his deputy, every matshal and his deputy, every matter structor, overy
tide-waiter, every lieatenant, every ensure, and
even every midshipman, will be independent
of State authority, and when presented before
a Magistrate or Dourt, in the imm date vicinage
where his offense is committed, will defy the
party aggrieved, and removed the action commenced against him into a Feerral tribanal,
whose terms ale really held, and then in recoute
and practiculty inaccessible places. One-halt
of the power residing is the States is thus to be
wrested from them at a single blow, and they
will hencetouth stand shattered monuments of
eather. No such change as this was Every postmaster and his deputy, every mas wrested from them at a single blow, and they will be necesorth stand shattered monuments of ea, lier greatness. No such change as this was anticipated by the Interest of our Fuderal and State Constitutions. They established the Federal Constitutions. They established the Federal Constitution chiefly for the platection of the whole country against foleign diagers. They gave to it a stronger Executive then they give to the States, respectively. They is tablished the State Constitutions cluefly for the place time and defense of pursonal rights. They knew that this Central Government would grow attoring er and stronger, and would altimately become an imperial power. It has realized that expectation, and has become seen a Continent 1 Power.

Hitherto, the citizen has enjoyed him double safeguard. Why shall one-half of him panuply be now form away from him? What lawful and proper object of the Federal Government has failed to be obtained by reason of the exercise of juriadiction by State authorities over efficers of the United States? None. Why, then shall the ancient law and castom be changed? Is there danger that the citizen will be to secure under that double protection of the State Citars and of the Federal Courte? That was not the doctries of the earlier days, and that is not sound doctrine now. I decount in the class of the former of the state of the courter of the text is not sound doctrine now.

that double protection of the S ato Ccurts and of the Federal Courte? That was not the doctrine of the earlier days, and that is not round doctrine now. I demand, in the third place, a tenson for this innovation. In eply you urge, first, a precedent. Precedents, in every country, are the stairway of tyrants. What is this pracedon.? It is a new which proteus the public Treasury, by withdrawing from the State Courts certain actions against Collectors of the revenue. Who knows now, without more eramination than you allow time for us to make, on what ground, or under what circumstances, or upon what exigency, that single departure from the nucent system was made? I do not know that I should have been in favor of that departure. Nor can you show the ionovation thus made, and which the been in favor of that departure. Nor can you show the ionovation thus made, and which the been in favor of that departure from the recedent, was necessary, if We are always wiser in our judgments in retrospect than in anticipation. I can now see when the precedent is pleaded to justify a further departure from the ancient system, abundant reasons to regret that the precede it was ever established. You tell me, in the next place, that there is danger of insubordination—danger that there is danger of insubordination—danger that there is danger of the Federal units in the familian color miss, when it transported them beyond sees, to be tried for prefeured offences. I pracking in your cars hee, and I proclaim score my countrymen, that there is no necessity, and no shadow of necessity for this great and fearful change. From every tribunal in any State of this United which the readers a final judgment is at can effect the lights of any public officer of the United States there is an appeal to the Supreme Court of the U. S. reserved to him by the Constitution and Laws of rights of any public officer of the United States there is an appeal to the Supreme Court of the U.S. reserved to him by the Constitution and laws of the United States; and that high tribunal can merely by its mandate, annul the findgment and discharge the party from all its core quences— This, and this alone, was the security which your formfabres established to prevent the civi-ant dangers of insubordination by the State an-

I proclaim, further, that when the Constitu-tion of the United States was submitted to the people in the several States, to be adopted by them, the chief objection which was urged with the most zeal, the most energy, and the most effect—was that the libertue of the citizen would be homely into learned by the arterial manner. be brought into leopardy by the extended power of the Federal Judiciary. So attenuously was this objection urged that the Constitution was not adopted until it was demonstrated, by Haznitton, Jay and Madison, in The Federalist, that the State jurisdiction, which you are now about to strike down, was left to the States, and could never be wrested from them without never be wrested from them without never the states. Exposition of the rest state of finances of the State, from the fact that there appears to have been a very careful endeavor in the message of Governor, to make it appear that the expenses of his administration were entirely within economical limits, and sepacially to show that the expenses of 1854 were reasonable indeed. It is but justice to the majority of the legislature that the truth of this matter should be placed fairly before the people, that there should not, herenther, when there shall appear to be a large date raginest the State, be any unjust burthens thrown upon the present year.

The statements a cich I have made show very conclusively the following facts:

First, That the real charges against the year 1854 are \$338, 140 08, instead of \$200,996 94

Second, That on the lat day of Jan. 1855, there were claims to sains the State were claims to sains and could not to insport the twelf be related from them without an act of Congress, which there have no rise to important to be suddenly projected, and carried out with unsual and unsected, replied to important to be auddenly projected, and carried out with unsual and unsection. I warm you that it is a transaction to important to be auddenly projected, and carried out with unsual and unsection. I warm you that it is a transaction. I warm you that it is a transaction to important to be auddenly projected, and carried out with unsual and unsection, when you then the same important to be auddenly projected, and transaction that will be released from them without an act of Congress, which there were no important to be auddenly projected, and transaction in the will be released from them without an act of Congress, which share have no repeated from them without an act of Congress, which share have no repeated from them without an act of Congress, which share have no repeated from the other hard an act of Congress, which share have no repeated from the other hard an act of the late of the other hard from them without an act of Congress, which share have no repe

follow it. I repeat, Sir, that there is no necessity for this act.

In every case which is intended to be reached by it, the mandate of the Suprime Courtof the United States annuls the judgment of the State Dourt, which has mistaken its ewp powers or encreached upon the Pederal authority; and the State itself, with all its dignity and pride, falls humbled and abased at the foo of central and imperial power. I betitually contemplate everything connected with the divelopment of the resources, and with the extens on and aggrandizement and glory of this my country, with an asthuman makinch is me sure it do not always find burning in the hearts of all with whom it is not dizensent and glory of this my country, with an asthusian method I am sure I do not always find burning in the hearts of all with whom it is my duty to act in her Councils. But Bir, I shudder when I think that this development, this extension, this aggrandscement, and his accumulation of glory, are going on firmly, at adily and croshingly, at the expense of these noble, independent Blates; that the majestic dome, which is spreads itself more wicely and creats itself ingher and higher, is preasing into crumbling flagments the pillers which constitute its tree and just support. Sir, we have had, on this accasion, as we always have on painful occasions of this kind, pathotic allusions to the safety of this Federal Union. And these allusions has a been addressed to me, although I have hitherto been content to be a silent listener to this debate.

What do you think must be the feelings of a man, himself a Representative of three multions, one-eighth of your whole people—a Representative of one-airth of all the freemen in the Republic—a Representative of your whole Concentrated Commerce—when he finds himself surrounded by men who think that a community so numerous and so intelligent, and enjoying and wealth and cherishing such interests, are so habitually blinded by passion as to be d sloyal to the Union on which all their safety depends? Sir, I almost forget my customary toleration when I see around me men who know how the interests and affections of their own homes cluster and entwine themselves with every fibre of heir own hearts, and who persents and sections are the offspring of homestry its.

themselves with every fibre of heir own hearts, and who yet seem to forget that, those intorests and affections are the offspring of homenity itself, and, therefore, common to all men, and suppose that it is measure against the country to profess against the oppression of any one of its many and verious masses and iscent. I warn you sensors, that you are saving the Union at a fearful cost. This is a Republican Sovernment—the first and only one that has ever been widely and permanently successful.

Every man in this country—every man in Matterseev of every description, for the event. test against the oppression of any one of its many and verious masses and laces. I warn you sense, that you are saving the Union at a fearful cost. This is a Republican lovernment—the first and only one that has ever been widely and permanently successful.

Every man in this country—every man in Christendom, who knows any hing of the philosophy of Government, knows that this Republication has been thus successful only by reason of the stability, strength and greatness of the individual Shates. You are saving the Union of those States by sapping and undermining the column on which it rests. You reply to all this that there is a newly developed accessity for it is not of Federal aggregadisetness. There is no steh new accessity

whatever. The Courts of the several S.at. s have exercised their concurrent jurisdiction of ar officers and agents of the United States for a period of sixty years, in cases which involved hie, libertly, property, commerce, prace, and war, subject to supervision by the superme tribunal of the Union; and waite individual right has been discounted, the public proced has been everywhere processed, and the public sufery has never received a wornd. During all that time there has never been an agent or spologist of the Federal power so apprehensive for the public safety has never been an agent or spologist of the Federal power so apprehensive for the public safety has to propose the measure which is now before us. There has never been a time when such a proposition would have been teceived with favor. There have, indeed, been discontent; but they have been local and transient. Such discontents are incident to free society everywhere, and they are inevitable here. It is the ugh the working of such discontents that free communities, acting by constitutional means, and within constitutional incans, and within constitutions from a obange in the geographical circuites which the intion of the Federal Government takes. Herefully, we have been the second the received been from the South. Now, the horizer which has it gen sets from the

seciety. All that has happened by a charge of the seene of these disconnents, revolting from a charge in the geographical ciraction which the section of the Edderal Government takes. Hereton of the Edderal Government takes thereton of the Edderal Government takes. Hereton of the Edderal Government takes hereton of the South. Now, the breezh which bears it em sets in from the North. When the wind blee from a southern quarter, the rights of the ettern wars not rafe without the rotenpes tion of the State tribunals. Now, when it comes from an opposite point of the compass, a Seantor from Congress to produce the Clark Towns of the Fugitive Slave Latw. The transaction to which we are engaged to by no in any the first act of a now drams. You began here, in 1753, to extend into the Free Et t.s. by the extense of the rode of power, the war of the season became obsolets. Though to great new reason became obsolets, though to great new reason became obsolets, frough to great new reasons became obsolets from the control of the all the Toritorial juradiction of the United States over new regions, without inhibiting States, You were took it that time, any you are took it that the faiture of the that time, any you are weared, and would become obsolete for the same reasons that the old law had become obsolete, and entitled that the faiture of the old law had resulted, but from its too extend the Toritorial juradiction of the United States over new regions, has the dold law, and more than the old law, it lacked the hammat to command the consequence and approval of the consequences, and supported of the consequences, the sympathics, and the jurigments of a free People.

The new law, however, was adopted in definition of the Consequences and supported the consequences, the sympathics, and the jurigments of a free People.

The new law, however, was adopted in definition of the supported of the Consequences care in from severy and, you reacted to refute in the date and ordinary course of the United States and on many actions the fre

the water to secure its execution. The public police, this tertains getting, the army and the party, have been it your commend, and have all there are are all the army and the party, have been it your commend, and have all there are are all the army and properly to add in other and a further and a more stringer to add in the Fugitive Slave Law Is not executed, and its becoming obsolete. You demand a further and a more stringer to law. The Federal Government must be around with new powers, subversive of public theory, to enfor a the obsolution statute. The bull before us supplies those new powers. This is the furth set. It is easy to be seen that it cannot be the final one. Sir'l look with servers, but with no as kiety, upon these things. They will have there id before long in complete the confidence in the time and west for the events.

I perform my duty, the only duty which remains for me now, in probetting age as the enactments of this law, and in expressing to you my conviction that you are traveling integrated to the Federal authorities, to califrate harmony between the Strates, to secure universal mand to express on the arms.

respect to the Federal authorities, to cultifate harmony between the States, to score universal prace, and to create new bonds of perpetual union, there is only one way before you. Instead of adding new pen aftics, employing new agencies, and tospiring new terms, on must go bick to the point where your must ken policy began, and conform your Federal laws to Megoa Charta, to the Constitution, and to to Reserve of

Commercial Matters at St. Louis.

The St Louis Republican of the 31 instant says that navigation is spll suspended, receipts of produce light and prices firm with upward tendency. A sale of white wheat (600 bushole) ure ever reached in the St. Louis Market. A lot of 1000 bus red wheat sold for \$1,75. These Summittee of the Whe's were concurred in, and extreme rates are owing to the great scarcity of Wheat at St. Louis. Sales of 1500 bble of flour are noticed at \$3 for superfine and \$9,50 for City extra. Corn is from with tales at 70a75, and Onts dull at 50cts. Wisconsin Barley was selling at \$1,49a\$1,45 per bushel. Rye nomical

and Whiskey 27c. Provisions are firm with limited sales of Mess Pork at \$12,50, Lard 31% and Hams at 8cts. Good potatoes were selling at \$200 per bushel. The Republican says that rain is generally wished for to rause the rivers and carry off the ice which obstructs their navigation.

When Beed.—The Washington Co., Organ, published at West Bend, gives a good account of the growth and prospects of that town. Hetween 30 and 40 buildings were erected last year and many more are to be put up this year. Excellent material is abundant and close at hand In the village there are four public houses, seven across for the sale of dry goods and groceries, one drug store four boot and hardware store, one drug store four boot and above ahops, one griet mill, three black-boot and above ahops, and above ahops above abov make and sections the reconstruction in declaration in the number of persons is 1000 or makers, two carriage shops, two carriage shops, two carriage shops, two brewerles, two and now we will proceed to examine sections.

A penalty of \$250 against refund of officers to act.

MR. TAYLOR'S SPEECH. speach of thou David Taylor, on the principle and revolutions introduced in the State Sensite by Mr. Reymert, on the 2 mir. Mr. President:

I beg the indulgence of the Senate this mor-ing, whilst I submit a few remarks on the question now before the Senate; and conside-ing that very little of the time of the Senase during its present ression has been occupied by me, should my remarks be some what exten-ed I am inclined to believe the indulgence will be cheatfully granted.

and I am included to believe the indulgence will be cheerfully granted.

This Legislature is charged, outside by to opposition press, wit doing nothing. Nothing in the way of legislation proper, and nothing in the way of developing the alleged miadeods of the State Administration.

The press which is said to be the particular organ of the State Officers is duily reliterating the charge of indolence, incompetency, a duntair dealing on the part of the majority office present Legislature, and this lead has been illowed by the very few presses in the state which take their time from the organ here. I have been individually described as a good nature disclosure and though a supposed upon, and ready to do a mean act to graftly a friend. I cannot agree that this description is at all applicable, except partially as

12 the daily issues of the newspers, and con ne their columnies to the columns of a part in sect, we have nothing to say; but when not content with these means of libelling the Slan-ghal party in this Legislature, they endeate to give their slanders the sanction of truth by en-bodying them in the preamble to a grave r so-lution, and present them for the considera ion of this Senate, I propose to have a work to zer.

y. The resolution ostentationally declares hat the Legislature has been in session securities we ks, and by plain implication charges that du ing

the Legislature has been in session secular weeks, and by plain implication—charges that du ing this long time not anything worthy of men ion has been done, nothing in the legislative—ne, and especially nothing which tends to cat a stadow upon the fair fame of the administration, or which in the lesst justifies any of the complaints made against them.

There are two causes of complaints against the majority in the legislature, first, that no legislature has been done, that we are incompetent, indolent and false to our profession of a deale to lesson the exposures of the Striet. In older to determine the truth of this charge we must consider what other legislatures under similar, or at least equally as favorable circumstances, have done. I propose there are to consider the last legislature as a proper pattern. That having been a pure, old fashi ned kind of legislature, democratic in all its various branches, mandalitored by the presence of the modern Shanghai, it ought to be accepted by our apponents as a perfect model, worthy to be copied by all future legislatures. Goaded into a spint of inquiry by the incessant cry against our indolence, I have taken the trouble to send a few hours in looking over the record of that model legislature, to ascertaen if possible if there were my truth or reason for this grave charge against us.

In looking over the actings and doings o this

charge against us.

In looking over the actings and doings o this model it is found that very little was dot e as early as this period.

There were 377 private and local acts presed during the session, 88 before the first dy of March, and 240 after that date. The look containing those acts has 583 pages exclusive of index. 100 pages of which are occupied by those 88 acts passed previous to March 1st and 483 pages are occupied by the 249 acts passed after that date.

after that date,

100 laws of a general nature were passed, at
the same session, and of these, previous to the
date above mentioned, 25 were pussed and 75
afterwards. These 100 acts occupy 144 pages,
the 25 acts passed previous to March late occung 23 of these passed.

The same legislature passed 35 memoria s, 13 before and 22 after the lat of March. The journal of the damps of that purely demorratic Assembly contains 861 pages, 419 of hese pages are occupied by the doings of this body previous to March ist including the Governor's measure, and 443 pages are occupied by the state.

previous to March 1st including the Gove nor's message, and 445 pages are occupied with the daings after that date.

The Senate journal of that legislature contains 658 pages, 312 contain the doings of that hody before March 1st and 376 the doings after that date.

In looking over these journals and the ap-

pendix to the same, I have accertained at what rime most of the important committees r port-ed to the different houses, and the first one ed to the different houses, and the firs one ionand of any great importance, except a report on the propriety of continuing the em grant agency and one in favor of a prohibitory squor law, is the report of the Committee on State Affairs, upon the subject of the Lenatic Asylum, and this report was made on the 2d say of March. This was a report on a very important subject and undoubtedly had prope and diffigent attention, and jet it did not make its appearance until after the lat day of Makeh.—
The subject of this report, of grave importance at the time of its delivery in the Senat, has been increasing in gravity and impo tunce from that time to the present, and is now, on account of those appointed to carry out it a recommendations and suggestions contained in and report, engressing the attention and exciting an alarm of fraud and evil practice a lover the State. There is no intention on my art to charge two of the Sonators who signed that report with any design to aid or abot the loings under it, nor do I hold them chargathe for anything which may prove to be wrong consequent on the same.

dent on the same. March 3d, a report was made on the subject of the emigration agency.

March 4th, a report on the prepriety o abolthing the present county system.

March 15th, a report or mining and smelt-

ag March 24, a report on bill providing for a tate tar March 31st, a report from a committ e apmarch of the action of the school fund to as, beinted to investigate the school fund to as. March 27th, a report on the rubject of the manal land mortgages, collected by S. Park.

Ocon.
March 28th, a report on the subject of the
For and Wisconsin River Improvement
April 3d, a report on the subject of au horizing towns and counties to loan their or dit to muronus. By the above references we find that nearly

alt the legislation was done after the lat of March. All the reports requiring lovest gotion were made late in the month of March. The three reports made by the purely lavest zating committees were made on the 57th, 28 h and committees were made on the string so hand slist days of Murch; these were the reports on the S. Park Coon mortgages, the Fox River Improvements and the school fund losn. The slove is the evidence of the speed with which the highly capable, persecening industricus and the bighly capable, persecenting industricus and ore, emmently democratic legislature, to agactad its business; and this was a legiplature ed in business; and this was a legitature composed of your real Simon-pare artiel; mone of your late Shanghai importations, I it the regular descendant of the old fashioned Malay fowl, full tailed, high headed, smooth agged, incressantly crowing birds, the legitimat issue of a cross between the dengitif and gas ecock

regular descendant of the old fashioned Mainy fowl, full tailed, high headed, smooth agged incessantly crowing birds, the legitimat issue of a cross between the denghill and gas e cock having a full share of the boasting propriatites of the one, with a slight sprinking of the reck-lessness of the other.

What has he present Legislature done, as compared with the smooth of the other with the smooth of the other with the smooth of the other compared with the smooth of the same period last year. We have had an in the same period last year. We have had an interpret from the communities appointed to neesting at the affairs of the State Prison, and funded upon a long and teddious investigation of facts: several reports of grave importance in the Assembly—one on the Swamp Lands, re purising much labor and research; one on the P oblibition of the State Geologist, and others which it is unnecessary to mention—all delivered promptly and without delay evineing a spirit of indivity and application to business which the ment of does not ignife the case of a coult, both as to the sequal expenses, for the objects of 1854, as expressed by the Governor in his statement above, where he makes that the spense \$200,996.04.

This may be considered a grave charge, but it is made after a caveful examination of the facts, and I hold myself responsible for its its made after a caveful examination of the \$225,000 last year, ve must have \$295,000 last year gation, baring under unter charge subjets requiring tedious research, and the collection of large masses of evidence, have not yet sported, but there is abundant evidence that they will bring in their reports much earlier than those of the model legislature. In add tion to having accomplished much more than our predecessors, within the same time, we have a some sum.

State Prison indebtedness for the current expenses of the year leaf to which an appropriation.

eors.
Enough has been said to establish t e fact

rity of the State officers by any investigations.
One would suppose that those articles were any destrable, from the pertianent which a bull has passed the Senate. Amount of sundry claims against them. Some investigations have already been made, others are progressing finely, and when the result is published. I predict the ravenue appetite of some who are hankering after them will be sated. As a kind of stay to the stamach of some who appear to be almost famished for the want of these investigations, until such time the want of these investigations, until such time as they shall be presented with the feast of them now preparing by the regular committees. I propose, with the indulgence of the Senate, to give the result of a few hours' investigation of the report of the Secretary of State and Covernor's message, in relation more particular to the financial affairs of the State.

The law makes it the duty of the Secretary of State to exhibit to the Legislature at its annual meeting a complete statement of the funds of the State, of its revenues and public expenditures, with a detailed estimate of the expenditures to be defrayed from the treasury tor the ensuing year, and showing the means from

the charge of indolence, incompetency, a difference of the state which take their tune from the state which take their tune from the organ here. I have been individually described as a good nature, and their tune from the organ here. I have been individually described as a good nature, and showing the means from which such expenditures are to be defrayed. We have a right, therefore, to expect that take their tune from the organ here. I have been individually described as a good nature, and ready to do a mean act to gratify a fixed. I cannot agree that this described in the indolence. That I am constitutions by rather melined to be lary can hardly be den and nothing butthe daily reiteration of green libed on the obstancter of my political freinds in this legislature could have induced me to forego for a time my natural leve of ease and go et for the purpose of vindicating those who do even deserve the censure of indolence, which inght with some degree of justice be applied to myself.

The resolution now before the Sepans smalls strongly of the press, and contains the index of the indolence of the distinct of the finances of torms the people who have induced me to forego for time my natural leve of ease and go et for myself.

The resolution now before the Sepans smalls at the report? We find the tollowing:

"Herewith, marked 'D,' will be found detailed at the press, and contains the resourt of the sample from the treasury for the means from which such expenditures are to be defrayed.

We have a right, therefore, to expect that the annual report of the Secretary with show the law annual report of the Secretary with show in the same with the manual report of the Secretary with show in the treasury for the annual report of the Secretary with the same with the same will be done in a pinker with the same will be done in a pinker and the pressure of the treasure of the same will be done in a pinker and true the same with the same will be done in a pinker and true the same will be done in a pinker and true the same with

"Herewith marked D. will be found detailed estimates of expenses to be defroyed from the treasury during the ensuing year, amounting in the aggregate to the sum of \$253,050,52, which may be embraced under the following heads, to

Salaries,
Pernament appropriations,
Legist time expenses,
Miscolleneous, REVENUES. The revenues of the State, applicable to the payment of liabilities and expenses during the ensuing year, are as follows: ensuing year, are as follows:

Anterages due from Beak, 3,700,25

"Counties put starement is,073 in Disso due from Counties put starement is,073 in Disso due from Celeb-of (cults stapel at temest hisraes the "A," 1 247,50 flows county orders, 301,90 Tax on auits, c-tranted, 1,400,00 State may to 1854, 55 per statement herewith marked "P," 203,00,00 flows counties and Fedicis, 2000,00 flows and Fedicis, 2000,00 flashood tax, "800,00 flashood tax, "800,00 flashood tax, "1,670,05 Canal lend mortgages, 1,0 0,00 228,635,01

By reference to the estimated expense of the State for the year 1855 as before above, it will be seen that the above estimate of Excense exceeds that of Expense, by the sum of \$35,757,—327.

What information is intended to be conveyed What information is intended to be convayed by the foregoing exhibits of affairs of the State treasury? Would any person, after perusing this statement, come to the conclusion, that there would be a deficiency in the treasury at the expiration of another year! certainly not, but, on the contrary, the legitimate conclusion is that the revenues for the year would mere than year all present and sequence for the period.

is that the revenues for the year would more than pay all present and accruing demands on the same, and have a surplus on hand.

Let us now turn to the message of the Gover nor and see whether that gives us any different information on this subject so extremely interesting to the people of the State. On page 5, of the printed message we not the following:

"The Secretary of State, in his report, estimates the unit probably necessary to be drawn from the Treasury, on account of the general fund during the present year to meet present and accruing liabilities at \$253,059,52. In this estimate, it is proper to state, that the sum of \$111,632,72 is included, as nocessary to meet arrearages, arising from the crection of Penitestiary buildings and support of couviers during the past and present year, also the sum necessary to be applied toward the creetion of a Lunatic Asylum, and the completion of a portion of the buildings designed, and the support of the Blind, Peat and Dumb. of the Blind, Deat and Dumb.

To meet the foregoing limbilities, the resources are stated as follows, viz:

Total, 5.28.820.91 Among the matters of interest presented by this Report, is a brief review of the public or-penditures, since the admission of Wisconsin into the Union—showing the yearly appropria-tions therefor, from 1848 to 1854, inclusive— ### 5830,244,30; of which \$94,674,31 was in the years of 1845-9; \$71,675,38 in 7850; \$112,-420,80 in 1851; \$123,474,96 in 1852; \$163,-910,55 in 1653; and \$264 692,07 in 1955. Of the last named aum, appearing under the head of expenses for 1854, \$63,696,03, was for the content of the content expenses of other years, so that the actual expenses, for the objects of 1854, were \$200-996,04, inclusive of such as are provided for by permanent provisions—thus only exhibiting that annual increase in public expenses, conse-quent upon the organization and progress of a ew state, and growing in a great measure out of the necessary expenditures in providing Penitentiary and other public buildings, and the establishment of charitable institutions.—
While from the foregoing, it would appear that the expenses for the year 1854, were between thirtyand forty thousand dollars more than for thirtyshid forty thousand dollars more than for any previous year, yet the aggregate for gener-al purpose, for that year, was evidently some forty thousand dollars less than for 1853. This is accounted for by the fact that upwards of \$80,000 more than in any previous year for such purposes, was appropriated for the erec-tion of a State Prison. Lunatic, Deaf & Dumb tion of a state Frison, Linsate, Dean & Dumb and Blind Asylums—including the moderate appropriation made for the benefit of the State Agricultural and Historical Societies; all of which did then, as they do now, appear to be just and worthy objects of Legislative favor;

just and worthy objects of Legislative favor; and some of which, at least, must continue to be objects of that character, and destined to create no small proportion of the public exponses, unless other provisions that at present exist, are made for their defreyal."

In the foregoing, the Governor clearly adopts the report of the secretary, as to the state of the finances, showing by the figures there is to be a certain surplus in the treasury, at the end of the year. And how carefully does he explain the nature of the appropriations in order to induce the belief that the finances have been economically expended. After exhibiting such a veryons anxiety to diminish the exponses of economically expended. After exhibiting such a nerrous arracty to diminish the expenses of the past and coming year, by making the various deductions above set forth, he should have been careful to have come to correct conclusions. He is responsible for them, and the people expect them to be true. We are called upon to have printed several thousand copies of this message and of the Secretary's report, in order to spread, as we had a light to suppose, a knowledge smongst our constituents of the real state of affairs of our government, and particularly some knowledge of how much

tax they must be called upon to pay in the ensuling year.

I do not hesitate to say, that the above expose of the state of finances is untime beyond
the chance of a doubt, both as to the probable
condition of the Treasury at the expiration of
they ear, and as to the actual expenses, for the
objects of 1884, as expressed by the Governor
shall be the more able to sustain the rapidly
gravity must be called upon to pay in the enstant the shoulds at the empty
wants of backrupt resaury answers, where 2

It is fortunate that "prosperity has crowned

For Blind Institute appropriation
For Deaf and Dumb appropriation
For expenses of taking census
For State Lunatio Asylum
For publication of Dec. History,
for which bill has been introduced into the Senate. onate, for which bill has been instoca-ced into the Senate. For keeping and transfer of State

prisoners, The above statements and estimates will be found upon ex-amination lower than the ac-tual expenses will probably be, and yet those make the smount and yet those make the smount probably necessary to be drawn from the treasury, an account of the general fund during the present year to meet the present and accraing liabilities. Instead of the sum of \$253,050 25 as stated in the Secretary's report and in the message of the Governor the general for this sum.

To meet the payment of this sum we have the following resources, State tax of 1854, Probable receipt from tax on rail and plankroad, 7.000 00 Probable tax on suits,
Tax on hawkers and pediers,
Canal land mortgages,
Probable tax on Banks,

Making in all. In this estimate of revenues, I have made no account of arroarages, as it is very apparent there will be an equal amount of arearages at the end of the coming year, and I have not es-timated the bank tax as high as in the Secre-tary's report, for the 'eason that the indications now are that banking will increase but little during the year.

during the year.

Deducting the probable receipts into the trescury from all sources during the year, from the whole amount; "bargable to the general fund for the same period—viz: \$419.597.35 263,410 00 And instead of having a surplus in the treastry on the lat day of Jan. of \$35,767 39 we have a clear deficit of \$151,197 35. I leave the figures to tell whether I have not proved the utter faisity of the statement made in the re-port and pressage us to the condition of the

utter failing of the statement made in the report and message as to the condition of the licesury. Let us for a moment examine the the first of the statement in the message, "that the actual expenses, for the objects of 1854, were \$200,997 04. By the foregoing statement it will be seen that the whole am't of claims against the jitate accruing between the first day of Jan. 1854, and lat of Jan. 1855, including the debt of \$3,101 70 was \$410,246 81, by deducting from this sum the said other \$3. rice day of Jan. 1804, and lat of Jan. 1805, the cluding the debt of \$3,101 70 was \$410,246 81, by deducting from this sum the said debt, \$8, 110 90. 110 00.

And the amount included in the ang of \$264, 692 07 above set forth, and which recording to the Secretary and Governor, is not chargable to 1854, viz: \$63,691 03.

Making in all to be deducted from the above named sum of \$410,248 81, \$71,806 73, leaving including above the secretary of \$450,248 81, \$71,806 73, 328,440 08 in-

balance chargable to 1854, of \$338,440 08 read of \$200,996 94, a difference of only \$137,-I have considered it necessary to make this

I have considered it necessary to make this exposition of the rel state of finances of the State, from the fact that there appears to have been a very careful endeavor in the message of Governor, to make it appear that the expense of his administration were entirely within economical limits, and appealsly to show that the expense of 1854 were reasonable ladeed. It is but justice to the majority of the legislature that the truth of this matter should be placed tailly before the people, that there should not, hereafter, when there shall appear to be a large debt signist the State, be any unjust burthens thrown upon the present year.

The statements which I have made show very conclusively the following facts:

First, That the real charges against the year 1854 are \$338, 140 08, instead of \$200,996

Second, That on the 1st day of Jan. 1855.

Second, That on the 1st day of Jan. 1855, there were claims a gainst the State upaid to the annunt of \$218 947 36.

Third, That on the first day of Jan, 1856, the State will be in debt to the amount of at least \$156,197 35 over an 1 above all revenues paid in, instead of being \$35,000 in advance. To this sum must be added the current expenses of the year, estimated at any \$200,000, and we have the aread total of \$238,197 35 to be two in order to spread, as we had a light to auppose, a knowledge amongst our constituents of the real state of affairs of our government, vided for by this less listure, in order to save and particularly some knowledge of how much tax they must be called upon to pay in the en-

for the two years \$1,253 at 1 he predeces-sor of the present executive came into office with a debt against the general fund of about \$29,000, (See appendix to Journa) of 1852, pages 23 and 24) he went out of office with the debt increased to \$53,000; an appual increase of \$7,000, with a revenue of his admin-istration, of \$135,455 32, and for the 2d year intration, of \$135,1:0 32, and for the 2d year the sum of \$152,29:44 making the gross sum for the two years \$152,29:44 making the gross sum for the two years \$157,461 06, and it will be remembered that the two years of his predecessor were characterized by very long sessions of the Legislature, and matter of grave importance the State were transacted each year.

The revenue for the two years pre-vious to the present adminis-tration was,

The revenue for the two years of \$287,457.98 the present admi detration, Increase of revenue wincipally by taxation,
The expenditures for the two
years provious to Jan. 1, 54, for
all purposes applicable to that
period of time,

The expenditures for the two years of the present administra-tion, applicable to this period,

SPEECH OF WM. H. SEWARD, 4,500 00 SENATE OF THE U. STATES, FEB. 23, 1955,

[CCKOLUDED.]

Protect Officers of the United States

Reery pointaints and his deputy, every make and all made pointy, every misses and and his deputy, every misses primary will be independently and the protection of the United States. See John Magistrotte or Dourt, in the imm-dotte reduced where his off, me is committed, will did to have been every misses primary will be independently be party aggreed, and removed the action commenced against him into a Few rull intended by the provide of the power residing in the States that has to be wrested from them at a single blow, and they will be noted by the Inneres of our Februal and Batas Constitutions. They eats bashet the Februal and Batas Constitutions. They eats bashet the Februal and Batas Constitutions are discussed in the States and the Februal and Batas Constitutions are discussed in the States and the Februal and devices of promount rights. They know an another the states of promount rights. They know and otherwise of promount rights. They know and the promount of the state of the otherwise of the Control of the States, the otherwise of the Control of the States. Repeatedly, They and the state of the otherwise of the States. Repeatedly, the state of the otherwise of the States. They know and the state of the otherwise of the States and almost open and the state of the otherwise of the States. Repeated the state of the otherwise of the state of th

your can be s, and I proclaim before my countrymen, that there is no necessity, and no shadow of necessity for this great are fearful change. From every tributal in my Sinte of this United which renders a final judgment that can effect the rights of any public officer of the United States there is an appeal to the Supreme Court of the U.S. reserved to him by the Constitution and laws of the United States; and that high tribunal can merely by its mandate, annul the tindependence—This, and this alone, was the security which your foreigntees established to prevent the evits and dangers of insubordination by the State authorities.

and dangers of insulordination by the State authorities.

I proclaim, further, that when the Constitution of the United States was submitted to the people in the evers! States, to be adopted by them, the chief objection which was urged, with the most real, the most energy, and the most effect—was that the liberties of the citizen would be brought into jeopardy by the extended power of the Federal Judiciary. So stranuously was this objection urged that the Constitution was not adopted until it was demonstrated, by Hamilton, 1sy and Madison, in The Federal Lit, that the State jurisdiction, which you are now about to atrike down, was left to the fitates, and could never be wrested from them without an act of Congress, which there was no rision to presume would ever be passed. Sir, this is an important transaction. I warm you that it is a transaction. transaction. I warn you that it is a transaction too important to be suddenly projected, and ca

transaction. I wan you that it is a transaction too important to be auddenly p ejected, and carried our with unusual and unsecrally rapidity. It is a transaction that will be relieved freely boldly, and through long years to come. You would have done well to have given us a welk, or a day, or at least one hour, to prepare oursolves with arguments to dissuade you from your purpose and to stay your hands. Suffer insto say, with all deference, that you would have done well fly ou had allowed yourselves time to consider more deliberately the necessity for a measure so bold, and the consequence se which must follow it. I repeat, Sir, that there is no necessity for this act.

In every case which is intended to be reached by it, the mandate of the Suprime Courtof the United States annuls the judgment of the Sinte Uourt, which has mistaken its even powers or encreached upon the Federal authority; and the State itself, with all inseligatify and pride, fally humbled and absaed at the foo. of contral and imperial power. I beliftually contemplate everything connected with the development of the resources, and with the extension and aggrandisment and glory of this my country, with an asthment and glory of this my country, with an asthment and glory of this my country, with an asthment and glory of this my country, with an asthment and glory of this my country, with an asthment in his that this development, this extension, this aggrandizement, and his accumulation of glory, are going on firsty, at ality, and crushingly, at the expense of these noble, independent States; that the majestic dome, while it spreads itself more widely and arecta itself ligher and higher, is pressing into crunbling fagments the pillers which considute its true and just sepand higher, is pressing into crumbling fragmen the pillers which constitute its tree and just so

the pillers which constitute its true and just support. Sir, we have had, on this accession, as we
always have on painful occasions of this kind,
pathetic allusions to the safety of this Federal
Union. And these allusions have been content to
be a silent listener to this debate.

What do you think must be the feelings of
a man, himself a Representative of three millions,
one-eighth of your whole people—a Representative of one-sixth of all the freemen in the Republic—a Representative of even a larger now-

one-light of your while people—a Representative of one-sixth of all the fracemen in the Republic—a Representative of even a larger proportion of the whole wealth of the country—a Representative of your whole Concentrated Commerce—when he finds himse f surrounded by men who think that a community so numerous and so intelligent, and cojoyin; such wealth and cherishing such interests, are as babitually blunded by passion as to be disloyal to the Union on which all their safety depends? Sir, I almost farget my customaty toleration when I see around me men who know how the interests and officetions of their own homes cluster and entwine themselves with every fibre of heir own hearts, and who yet seem to forget that, those interests and who yet seem to forget that. themselves with every more of their own hearts, and who yet seem to forget that those intorests and effections are the offspring of humanity itself, and, therefore, common to all men, and suppose that it is breason against the country to protest against the oppression of any one of its many and various masses and sacra. I warn you Sensions, that you are saving the Union statearth seat. This is a Ramblican joyerment—the ful cost. This is a Republican Jovernment—the first and only one that has ever been widely and permanently successful.

Every man in this country—every man in Christendom, who knows any hing of the philosophy of Government, knows that this Republic has been thus successful only by reason of the stability, strength and greatness of the ordividual stability. You are aving the Union of thom States by supping and undermining the column on which it is rest. You reply to all this that there is a live of every developed accessity for it is not of Federal aggregated every the column of the col

whatever. The Courts of the several States have 555,**89**6 81

WASSINGTON, March 4 SENATE -- The bill making further apropriations of Virginia land warrants,

The Lust Hours in the Senate.

for the soushedoor of Virginia land warrants, we staken up.

M. Stuurt a filw mi utes after twelve o'clock in up it a point of older against the bill that in was the 4 hot March.

The question was discussed by Messas. Stuart and Mason.

On on an (interposing) We can remain until 12 o'clock M of the 4 h.

Mit Mason moved to take up the Virginia and wirrant bill. Refused, 20 to 19.

1-10 v. M.—Another ship it cas on one to do the extension presention to a union for the Senon the extra compensation is a ution for the Sen ale pages and laborers on the public grounds— Pages

obtracted to my are a within a given in the Scinte FF Always on ha disverykir to them war of NEL Ametion for adjoinment was less. No question for adjoinment was less. No question for adjoinment was less to a given Arcuss proposed Laughed at Senste em-banased by uninished business is the House The Civil and Diplematic bill was ordered to or grossed at Donelland Diplematic bill was ordered to crigossed at Douglass from the Committee on Territorius r ported a bill authorizing the people of O 1 gon to form a constitution and copy for admission late the Union Objected to for want of

Mr Douglas urged the passage. The delay indoccurred at the request of Mr Bell. Mr D saul good faith and public interest demanded the admus on,
Mr Joues-I go for a division of California.

To y have a right to come which me shaves. You not distroying the business of power.

Mr But from the Committee on Territories, explained the bit.

It, Brown—I shall oppose this bill.

Mr Brothest—We had a promise of no more gereral legislation. I more to by the bill on We don't know whethe she has the requisit popula ion Mr. Douglas—She has 75,000 and will soor

have 100 000

Mr. Bro theal resumed his opposition.

Mr. Wilson.—I is Sunday I am willing to some not husness need sary for he gov resents and I don't think their soul. I think it had better be left open for moother year, I abalt you to lay the bit en the table. yo a to lay the bilen the table

Ar Seward. Will the Sens or from Mass.,
points inc to suggest a new state may come to
by invitation, like that which is given by this
bill Caltioria was not invited and the dichigan can a in a state constitution. This irreguinvity constituted the gest difficulty to the way
of the simission of California. O egon will apply next winter if not admitted now. If the
invitation is not given now, objection will be
inside on the ground of irregularity when she
does or me. According to legislative reasoning
and the record, this is not States at the same and
in the record, this is not States and the table
to cause a resulting at the record will contain
by at lessafter art from will have difficulty in explaining it. But if you call thus backy, the admission of a free State on the Pacine is an act
to justify its being done even on so secred a day.

If Douglas. I had intended to press the bill
as long is opposition came merely from the
south. But since the opposition eness (turning
to Mr Wilsor) from the extreme tooth is with
or the extreme south it would be midness to atterment it. I shall solution the attempt. The
Yeas and Nays were called for Yeas 47, Niys
11.

The Civil and Disconate bill came in the 2 r Seward. Will the Sena or from Mess.

The Civil and Diglomatic bill came in a the Ser are with 123 amerdments from the House— The Scrate agreed o 164 of them, the House seeing from the remaining 24—the bull was

The bills signed by officers of the respective Houses were then receive, detaining the B nate tall 11 1-2 o cool. Then came a necession from the P cyclent that I o h d no further communications to make nd after receiving from, and sending to the House, the eliciomary resolutions, at 41 50 A M thu S note adjourned starter.

CORPORATI & EXECT OF -The following is the CORPORATI A ELECT OF —The following is the last of Corporation officers elected on Monday ask. The context, a though considerably when in some teap-cis had nothing to do with politics. We believe the test a end of the President—PH Van Burgen.

Trustees—L J Farwell, H A Tenney, Win Clerk—D N Johnson.

Clerk—D N Johnson.

Treasurer—A Wilson
Assessor—D C Bush
Marshal—I E Br wn - Madion Patriot PATAL Accident -We regret to learn that a lad, aged about aight years, a son of Mr Issac Brow residing in this town, about three miles could of this village, was accidentally killed yeatords. He was at play about a wood pilo when a log rolled down upon h m, producing instant death. He had been absent from the house but a few minutes.——[Washangton Co Organ.

Guarantee Fined, \$100 000, Deposited with the

Comptroller of the State of New York The advantages offered by this Company are many as the public are invited to call upon the Agent and a ski themselves acquainted with the System adopted by t Company, when they will be bet er able to decide what! ance is desirable or not, and at what Office it! and here irrestrated his opposition.

In Wishou-I is Sunday I am willing to the act hasness need sary for he gov r ment, and I don't think this is such I think it had better be left open fr another year, I shall you to lay the bit en the table

1 r Seward. Will the Sana or from Mass.,

their interested insure

The many reasons why Fire and Marine Insurance should be adopted, are incontravertible, and Life insurance, while it in no way interferes with, or undervalue hese important institutions has claums which no othon consideration, enjoy a mu h higher catima than

It Soward. Will the Sona or from Mass., permit not to auggest a new state may come to by any tation, like that which is given by this bill. California was not invited and like Vichtigen can an a state too state from I his irregularity constituted the gest difficulty in the way of the alimiston of California. O egon will speply next winter if not admit d now. If the invitation is not given now, objection will be made on the ground of arregularity when she does or me. According to leg dative reasoning and the record, this is not be idey. March 4 is, but March 3d. If you were no lay if on the table because is subjected and the record, the is not be idey. March 4 is, but March 3d. If you were not will contradict you be reader at 1 you will have deficulty in explaining it. But if you call this bindry, the examination of a free State on the Pacific is an act to justify its being done even on so secred a day.

Mr. Douglas, I had intended to press the bill as long as opposition ram; merely from the worldly property.

While the representative of 1 family lives, (although through neglectto insure bis property, he becomes bank rapt) has upports his family, but at his death, dies also heir means of support, unless he has saved them from went by an insurance on his life, which may be done by the payment of a small annual results, the payment of which has not dissimished his or neworld possibiris during If young, the annual payment will be light, and if insur ed with profits, the policy will b constantly growing more rainable though the pressum is not increased.

Olergymen and others who have a stated and regular

income, should insure, wellknowing that, at their deal heir families may be left double ite. Monengaged in mer tile o manufacturing pursuits svorvaring and uncert in their laues, should becare The farmer who has still a mortgage on his farm, should mra atlesatto the extent o it, thereby enabling hi amilyto pay off the debtin ea . o films
